

Make your house safe

1. If your house has a tin roof check for loose nails, holes, leaks and rusty areas and do the repair works
2. If your house has a thatched roof check for the damages done by growth of algae and moss, rodents, birds and previous storms, and re-thatch, strengthen and replace the broken bamboo
3. If the door and window latches of your house are not working and there cracks/gaps in the window or door panes do the repair and replacement works
4. Remove dead branches or dying trees from your yards which could blow about and cause damage to your house

During Storm Season

Make Yourself Safe during this Storm Season....

1. Do not venture out and stay indoors during a storm
2. Do not take shelter in small sheds and under isolated trees
3. If you are outside, take shelter in a safe structure
4. If you are driving, stop your car and park in a safe place away from power lines and trees

DO YOU COMMUTE BY A FERRY?

1. Listen to the weather forecasts regularly
2. Avoid boarding a Ferry if you see dark clouds in the sky accompanied by strong winds
3. Know the carrying capacity of your Ferry and avoid boarding an overloaded Ferry
